MICHIGAN HEART &
VASCULAR INSTITUTE

Advanced Cardiovascular Approach™

The CardiacAdvantage™ changes the way patients and their primary care doctors experience cardiovascular care.

Through years of teamwork, CardiacAdvantage™ doctors at Saint Joseph Mercy Health System's Michigan Heart & Vascular Institute have built a program that relies on a unique team approach.

Together, our cardiologists, cardiothoracic surgeons, vascular surgeons and interventional radiologists use the latest medical research and technology to prescribe a complete treatment plan to patients with cardiovascular disease. This unique team approach helps to ensure satisfaction for both patients and their doctors.

In a single phone call, your primary care doctor sets the entire process in motion, providing rapid access to care when you need it most.

Ask Your Doctor or call 800-321-2211

REMARKABLE MEDICINE. REMARKABLE CARE.
